HAWKEYE DOWNS

SHORTHORN

*Sale*

SEPTEMBER 25, 1953  
CEDAR RAPIDS, IOWA

## Foreword

Many breeders of Shorthorns in roughly the eastern one third of Iowa have felt for some time that it would be well to have annual fall and spring sales in a location central to them and to also make it easier for buyers of Shorthorns to fill their needs.

A group of representative breeders met in March and voted to use the fine facilities at Hawkeye Downs for a sale on September 25, 1953. Representative breeders from all sections are on the sale committee:

A. T. Robinson, Masonville -  
chairman

Otis Rothlisberger, Elgin

H. E. Whitford, Volga

Herman Helgens, Monticello

Robert Blakely, Grinnell

Edward F. Fennern, Garrison

Logan B. Urice, Vinton

Hugh Owen, Homestead

Don Penningroth, Wellman

The committee selected Earl S. Girton, Vinton, Iowa, who has managed many livestock sales during the past 35 years, to manage these Hawkeye Downs Shorthorn sales.

The response to the call for entries of good cattle with fine pedigrees was excellent.

### THE OFFERING

17 bulls of which 4 are tried sires and 13 bulls calved in 1952 and practically all of breeding age.

31 females of which 10 are cows with calves at foot, 10 bred females and 10 open heifers.

Cattle that are good individually and with excellent bloodlines!

The sale cattle will be shown at 9:30 A.M. and will be judged by W. N. Anderson, West Liberty, Iowa - a nationally known breeder, showman and judge. Be on hand early to observe his instructive work.

The sale of 4-H and FFA steers, as announced elsewhere, will start at 12:45 P.M. sharp and immediately precede the sale of the breeding cattle.

We invite all Shorthorn breeders and commercial cattlemen to be with us sale day.

Earl S. Girton, Sale Manager.

PLEASE BRING THIS CATALOG TO THE SALE WITH YOU.

The buyer must give the seller notice within 90 days in case of a non breeder. In the case of young bulls this means within 90 days after they become 14 mos. of age. Why not allow your youngsters to enjoy the profit, companionship and to learn the arts of fitting and showing a calf like the above by buying one or more of the good prospective Club steers offered at the opening of this auction?

We have been promised several Shorthorn steer calves suitable for 4-H and F.F.A. work in 1954. We cannot tell the exact number yet but a more detailed announcement will be made in our ads in the Cedar Rapids Gazette, the Farm Bureau Spokeman and over radio station WMT. The calves will be led into the ring and sold at 12:45 P. M. sharp and just ahead of the breeding cattle.

This is a convenient place to obtain your Club steer for 1954.

Among the cows selling with heifer calves at foot there should be several suitable Club heifers.

KA DEL CAMEO 6TH - Is a mighty good burly headed son of our junior herd bull, Leveldale Cameo. He is also out of a top Maxwalton cow that has given us some of the best cattle in our herd. He will do someone a lot of good.

LEVELDALE CAMEO is the other son of the very prominently known Glassingall Research being used in this area. His dam is also the mother of Mather's junior herd bull, Aldie Mainliner, that they have shown and used so successfully. She was considered one of the two top cows in the Leveldale herd. Cameo is the sire of Lot 12 and Lots 27, 28, 29 and 30 carry his service. You get weight and substance in this line of breeding and also good colors.

GLADLON'S VICEROY - Has lots of good breeding back of him. He would get nice colored feeding calves if used in a commercial herd.

Since it is profitable to use weighty, vigorous beefy Shorthorn bulls with lots of substance like the above.

To put the spots on the whitefaces like these cross-bred calves at Bar B Eden Ranch, Ogden, Utah it will be equally profitable for buyers at this sale to use their bulls for crossing and grading purposes.

We invite commercial cattlemen with Angus cows to purchase a white or roan bull in this sale to produce those good blue greys or the cattlemen with white face cows to use bulls of any of the standard Shorthorn colors to produce the ever desirable white face roans or brockle face reds. Cross breeding pays for the producer of market cattle.

**OHIO LEADER 2D - THE 1952 INTERNATIONAL GRAND CHAMPION STEER  
OVER ALL BREEDS.**

Bred by O. W. House and Orval Benroth of Washington Court House, Ohio and fitted and shown by Ohio State University. He weighed 1100 lbs. and his owners took in \$6420. in winnings and sale price of the steer. He dressed over 68% - the highest of any International Grand Champions.

This steer was of Edellyn Royal Leader breeding of which there is much in this sale.

This is the **FOURTH INTERNATIONAL GRAND CHAMPION SHORTHORN STEER IN THE LAST EIGHT SHOWS.** Even before the show many breeders of the other beef breeds were feeling that Ohio Leader 2nd would top them all. This steer was especially liked for his weight for age, his shortness of leg, depth and thickness of body, fullness of hindquarters, depth and mellowness of covering and an excellent head - in fact the ideal meat type steer.

**WHY NOT PRODUCE CATTLE OF THIS EXCELLENT BREED? WE INVITE YOU TO MAKE PURCHASES FROM AMONG THE GOOD CATTLE IN THIS HAWKEYE DOWNS SALE.**

**Market Toopers.** This load brought \$35 a hundredweight on the National Stock Yards, Illinois, October 29, 1952, - highest price since a \$35 top on August 11th, that sale the highest since early in June. These steers were fed at the Ralston-Purina Experimental Farm at Gray Summit in Franklin County, Missouri, and averaged 1,153 pounds when they were purchased by Armour & Company. Part of a project at the Purina experimental station, the steers were on feed for 322 days, their ration consisting of alfalfa hay, corn and Purina supplement.

BESSIE MARIGOLD 15TH - Is a good heifer with a nice head, good top and bottom lines and very blocky. I really should not sell her but I want to put something good in the sale.

W. L. MAX MAJOR 4TH is by the same sire as Lots 8 and 42 in this sale. He was Grand Champion bull at the 1951 Illinois, Mo., Iowa and Nebr. State Fairs and Reserve Grand Champion at the 1951 International Congress sale where he sold for \$4000. to the University of Wyoming. You may obtain this improving blood in this sale.

AUGUSTA 239TH - Is a full sister to the first heifer sired by Moray Research, that we sold a year ago at Marshalltown to Merne Anderson, Victor, Iowa. This heifer had a poor start, due to the fact her mother died a few days after calving; never received much milk and weaned very young. She has come along real well this summer and we think she will develop into a very good breeding matron.

GLASSINGALL RESEARCH won his class three different times at the International. He was a great show bull and has been a good sire for Mathers' Leveledale Farms. His blood is well represented in this sale he being the grandsire of Lots 11, 12, 15, 40 and 45.

ROAN ROSETTE 3D - Sells open. Notice considerable Marellbar breeding.

Let the big red, white and roan cows with their calves convert your pasture, hay and other roughage and some grain economically into choice cuts of beef. What is more beautiful than cattle of these colors, knee deep in grass with moderate shade and nearby a plentiful supply of good water?
